Our Profile

VTM Enterprises supplies 750+ new machines and over 2000 used machines per year to customers across Asia and Europe.

With more than five decades of experience in this field, we serve our customers through our warehouses located in Japan and India (Chennai and Coimbatore).

"Trust and Reliability"

We provide solutions for your production and maintenance activities with high-quality technical products from world-renowned brands that suit your specific applications. Our technical team brings over 57 years of combined experience in the industrial field.

Vision

To be a "**Trust and Reliable**" provider to industries, committed to delivering complete customer satisfaction.

Mission

To create value for our customers by delivering exceptional technical service and superior quality products that meet their needs and goals.

We Undertake All Types of Double Column Vertical Machining Center (VMC) Job Orders

VTM Enterprises provides heavy-component machining job services.

We are located in Thirumudivakkam, Chennai. With our highly experienced in-house engineers and technicians, we deliver industry-leading products designed to perfection.

We take pride in offering complete service support, including comprehensive post-delivery service.
